

Where Can My WACE & ATAR Take Me?

Government of Western Australia
School Curriculum & Standards Authority

ST. MARK'S
AUSTRALIAN
INTERNATIONAL SCHOOL

THAILAND'S FIRST AUSTRALIAN GOVERNMENT APPROVED SCHOOL

St Mark's is the first school in Thailand to partner with the Western Australian Government's School Curriculum and Standards Authority (SCSA) to offer its graduates a more efficient pathway to the world's universities.

St Mark's 16-month matriculation program provides students with the Western Australian Certificate of Education (WACE) and the Australian Tertiary Admissions Rank (ATAR).

The WACE & ATAR puts St Mark's graduates on the pathway to success.

That's because the ATAR is the standard accepted by all Australian universities. No other test or course is necessary once a student has their ATAR.

And of course, the WACE & ATAR are recognised and accepted by the best universities all around the world.

On the following pages, please explore where your ATAR qualification can take you next...

AUSTRALIAN UNIVERSITIES

Australia has been a popular study destination for Thai students for many years.

It's close proximity to Thailand and large Thai community make it a great place for students to enjoy a world-class education, under guidance from some of the world's leading lecturers and researchers.

Going to university in Australia is a great way to expand your knowledge, experience a new culture, and enjoy new experiences. You'll get plenty of support at university, and a chance to apply for an extended work or immigration visa after graduation.

UNITED STATES UNIVERSITIES

The United States of America (USA) hosts the most number of international students in the world.

Quality education, a unique curriculum, a multicultural environment, and abundant opportunities are just some of the reasons why many international students want to study in the US.

Many US universities use a "holistic" approach to student admissions, where the WACE transcripts and ATAR are required to demonstrate academic performance.

Frequently, additional essays, interviews and, student aptitude tests (SAT's) form part of the holistic approach.
